

## Kersey Receives Architects Plans For New Campus

Valley College will remember the date of Thursday, September 28. On that day at 11 a.m. a tentative plot plan for buildings on the site of the new campus was presented to the faculty. This, finally, was something tangible, a dream becoming a reality.

Architect H. C. Chambers presented the plans which were approved by Dr. Vierling Kersey.

The administration building, library and student union will be in the center of the campus facing Fulton. On the right of this will be industrial, technological and science buildings. On the left will be the auditorium with a 2,000 seating capacity. In the back of the center area toward Oxnard will be the women's gymnasium and to the right toward Burbank Blvd. the men's. The swimming pool will be to the rear of the campus toward Coldwater, and in back of that will be the area for the stadium. Around the campus and particularly toward the rear will be the parking area which will hold 3,500 cars.

H. C. Chambers and Lester Hubbard are the men employed by the Los Angeles Board of Education to draw up the plans for the new campus. They also did the plans for Occidental College.

As a point of pride students may be interested to know that our new campus will be larger than either that of UCLA or Occidental.

"As soon as plans are completed, building will proceed as far as funds permit," says Dr. Kersey. However, to complete the building program rapidly as it now stands a new bond issue will have to be presented to the public.

The type of architecture to be used has not yet been decided.

## NEW ARRIVAL ATT SLOSSON'S

James Slosson, new Valley College instructor, handed out cigars last Monday. The occasion heralded the arrival of one Bonnie Lou Slosson, born Saturday, September 29.

Weighing in at 7 pounds and 8 ounces, the new arrival and first in the household, was born at the Queen of Angels' hospital and is reported doing nicely.

## BRAUNS TO GO TO MEXICO CITY

Mid-semester vacation takes Erwin Braun, English instructor, from the Valley College campus until February. Mexico is the destination of Mr. Braun and his wife, daughter and the dog, Spook.

Heading for Lorado, the Brauns then plan to take the Pan-American Highway to Mexico City, from where they will travel through Mexico.

### NOTICE

Warning to all veterans! According to a statement issued by Donald Prismon, Valley College's veterans' adviser, all vets must check through the Office of Admissions if they are dropping out of school. If this is not complied with, it may seriously impair their eligibility status.

"All men who receive their 1-A classification and wish to have a letter sent to their draft boards should contact Mrs. Hazel Chisholm," stated Mr. Prismon, "and do it immediately."

PEP BAND—front row, left to right: Laurance Adler, Dorothy Hendricks, Doris Hubler, Normand Poulshock, Don Ingle and Mida Dutcher; back row: Alfred Ghezzi, Richard Price, Ronald Litt, Russell Hubbard, Instructor Richard Knox and Jack Smith.

## Enthusiasm, Talent Found In Band Need More Musicians Says Knox

By DICK McGOWAN

Strike up the Band or the Case of the 37 Missing Musicians. What has happened to all the musicians around the campus? Only 12 have turned out religiously for the three band rehearsals that have been held.

As Mr. Knox says, "The enthusiasm and talent is there, but there is not enough of it. The band won't run by itself . . . it needs your cooperation."

Those who form the nucleus of the band at present are: Russell Hubbard, a trombonist from San Fernando and Jack Smith also a trombonist; Dotty Hendricks from North Hollywood, an alto-sax player; Dave Northwang from Van Nuys and Ronald Litt from Sherman Oaks on the drums, (Northwang also has had experience as a drum-major); Ronald Price, San Fernando and Larry Adler, Van Nuys, both clarinetists; Alfred Ghezzi from North Hollywood on bass; Norm Poulshock from Van Nuys on the French Horn; Mida Dutcher, Canoga Park and Don Ingle, North Hollywood on trumpet. The latter also does arranging.

Mr. Knox has promised that the band will "make as much of a contribution to the school as a young organization can." If everything goes as planned, the band will play at the E.L.A.J.C. game Saturday night and the remaining nearby contests.

So come on, lend a hand. The foundation has been laid, let's build up that band now.

## Society Announces Series of Movies

Valley College's Film Society has announced the list of movies to be shown this semester, according to Howard Woolfan, sponsor of the society. They are: "The Story of Gosta Berling" (Greta Garbo), Oct. 13; "The Three Musketeers" (Douglas Fairbanks, Sr.), Oct. 27; "The Italian Strawhat," Nov. 10; "The Invisible Man" (Claude Rains), Dec. 1; "Duck Soup" (The Marx Brothers), Dec. 15.

## Game Directions

For motoring to the East LA-Valley game tomorrow at 8 p.m. at Garfield High take Riverside Drive to Figueroa Freeway, turn left at 2nd Street to Alameda Street. Take a right on Alameda to Aliso. Go left on Aliso to Soto. Turn right on Soto to 4th. Take a left turn on 4th to Atlantic Blvd. Take a right on 6th two blocks to Garfield High School, the scene of the game.

## Jim Pollack Travels European Countries

Jim Pollack, staff photographer for the VALLEY STAR last semester, is taking an extensive trip through Europe.

A letter from Pollack has just been received by the journalism department saying, "Have just completed crossing the Swiss Alps on a small 125 LC motorcycle. This country is something out of a story book. Next stop is Italy where it should be warm for a change. So far have been through France, Belgium, Holland, Luxembourg, Germany (Black Forest) and across the Boden Sea to Switzerland. Of course am shooting pictures like mad. Believe it or not, I miss that little campus. Please give my regards to everyone. Tell Mr. Tatum the French food is the best."

## AMS Meets; Decid New Plans, Leaders

In a sparse AMS meeting held last Thursday at College Hall, several offices vacated from last semester were filled and plans for a prospective social affair were discussed.

Ed Masry defeated Dick Degnon for the vice-president's office. Chick Romaker was awarded the office of secretary defeating Jack Jevne for the office. Stu Wiley was named treasurer, getting the nod over Jack Jevne and Wes Hessler.

AMS presy Bob Baker brought up the possibility of having another social outing similar to the one enjoyed by first semester male students at the Barbary Coast.

Plans will get underway at the next meeting for the proposed outing.

## Marilyn Modglin Killed in Accident

Marilyn Modglin, a student of Valley College last semester, was killed Monday night, according to Gloria McCoy, a friend of the deceased and a Valley student.

Miss Modglin was riding in a car, when the door suddenly opened and she was thrown to her death. Relatives could not be reached for further details of the accident.

Miss Modglin was a participant in WAA activities at Valley.

## Our Error—Name's Howell

Parker McClure Howell is the new instructor in the engineering department. In the September 22 issue of THE VALLEY STAR, there was a mistake in his name.

## Annual Staff Announces Plans for First Yearbook

At the first meeting of the Valley College Annual Staff, held Tuesday at 11 a.m. in R. 12, general plans were brought out by Wilford Jenks, who will be the faculty adviser for the group.

The price will vary with the numbers of year books that are sold. The top price will be \$4.00 for an approximate 125 page annual. The price can go as low as \$2.50, according to Mr. Jenks, if as many as 800 annuals are sold.

Every Valley student will be photographed and an individual shot of each will be published. Group shots of all Valley activities also will be printed in the annual.

The annual staff will be canvassing the campus today for sales. One dollar will be accepted, and the balance to be paid when the price is definitely set. If interested parties are not contacted, any staff member in R. 12 will accept the deposit.

## Compton College Holds Conference Delegates Attend

Valley College delegates attended a Regional Conference at Compton College last Tuesday, October 3.

Mike Seeger, Associated Students president, and Dick Yamashita, AS vice president, were voting delegates to the conference. The entire Student Council attended the conference as representatives of Valley.

Bud Gibson, Associated Students president of Compton College, presided over the General Assembly held in Scott Thompson Auditorium, in the Administration Building on the Compton campus.

Dr. Stuart F. McComb, president; Dr. W. Craig Thomas, director; W. J. Schleibaum, assistant director of student activities; and Mrs. Esther J. Conrad, director of women's affairs, all of Compton College, gave brief welcomes.

In the afternoon, the representatives were divided into work shops.

At 3 p.m. refreshments were served in the Student Union. Entertainment, swimming, and dancing were offered the delegates.

## IOC Group Elects New Term Officers

Valley College's first IOC meeting was held last Thursday with election of officers taking up the majority of the time of the gathering.

Student body vice president Dick Yamashita, who is president of the Inter Organization Council, presided over the meeting. Ed Austin was elected vice president, and Helen Davis was named secretary-treasurer.

It was decided that meetings will be held every other week. A meeting was held yesterday.

People eligible for membership for the IOC are a president or delegate from an on-campus club.

Plans for a noon dance were cast aside due to lack of support from various groups.

President Yamashita stated that he would greatly appreciate cooperation from students and campus organizations to further the development of this worthwhile club.

## Morgan Must Leave Classroom for Navy

Uncle Sam is taking not only Valley College students into the Armed Forces but has now taken a faculty member. William J. Morgan received his "greetings" last Thursday and will report to Washington, D.C., for further orders in the United States Navy. He will return to the Navy with the rank of Lieutenant, senior grade.

At Valley for only a month, Mr. Morgan admitted, "Valley is the best school I have ever attended; the students are swell; and the spirit is amazing." As for future plans, he hopes to return to Valley and resume his teaching career.

## To Keep Our Spirits or To Gripe?

"In spirit there is unity, and in unity there is strength," is an old adage which is food for thought for all Valley College students, old and new alike.

Valley is "just one year old and still needs the unity and cooperation which was so proudly manifested by the Pioneer students during the first months of the college's existence. We must all remember that anything in its infancy needs special care and must be given a little extra consideration if it is to mature in the correct way. A little tree must be nurtured if it is to grow, but when it becomes a giant tree it is taken for granted that it will survive without extra care.

There is a special spirit and pride at Valley which must never be lost. This spirit and pride will always be retained if we work together. New students can't help but feel the flame of school spirit, enthusiasm and close organization if we do not let it die.

Good old-fashioned "gripping" is one way of breaking the close unity of all those—faculty and students alike—at Valley.

Are you the one who "gripes" about our football team, the hours of the student club or some other trivial matter. Stop and think about it! Is it worth jeopardizing a school spirit which has been commented on by so many who have visited Valley? Our college is a college built for the education of mature men and women. Let's forget what high school we come from and concentrate on the college we are attending.

Unity can be accomplished and guided through many sources. On-campus clubs are one way of supporting the college and still another way which takes less time is attending all the assemblies, games and dances. No student can be a true part of a college unless he participates in the extra-curricular activities which are offered to benefit the student and for no other reason.

It's up to Valley students to retain the school spirit which was one of the major foundations of the college. Let's take pride in our college and remember above all else—it's OUR college!

D. JOYCE.

## In The Mood

By DICK McGOWAN

Stan Kenton is taking his 20 piece dance band on a three month tour. This is the same organization that played the Rendezvous Ballroom at Balboa over the summer. But come January, Stan's 40 piece "Innovations in Modern Music" concert orchestra takes to the road for the second year. I sincerely hope it's even more successful than last year's wonderful crew.

Metronome Magazine published a tribute to Fats Navarro, in its latest issue. Born Theodore Navarro, Jr., Fats died July 7th. Dizzy Gillespie says he was "the best all around trumpeter of them all." To jazz fans, he will always be remembered for his great, creative bop playing.

Frank De Vol has organized one of the finest choral groups I have heard in ages. For once you can hear the males. Quite a change from the usual predominantly feminine choirs. By the way, Frank's band might very well be the best of the dance bands. At times it sounds closer to the real Glen Miller orchestra than any of the other imitators. Listen to the record "Dream Awhile." See if I'm not right.

With all the uke mad Arthur Godfrey's around the campus, it seems rather strange that we don't have a band. Not a uke band, but there certainly must be a lot of musicians around who would like to form some sort of group—whether it be a combo or a full size orchestra. Plans are in progress to put on a musical show, featuring the top tunes of Broadway productions. This show has all the earmarks of providing its audience with a thoroughly enjoyable evening. But, we can't

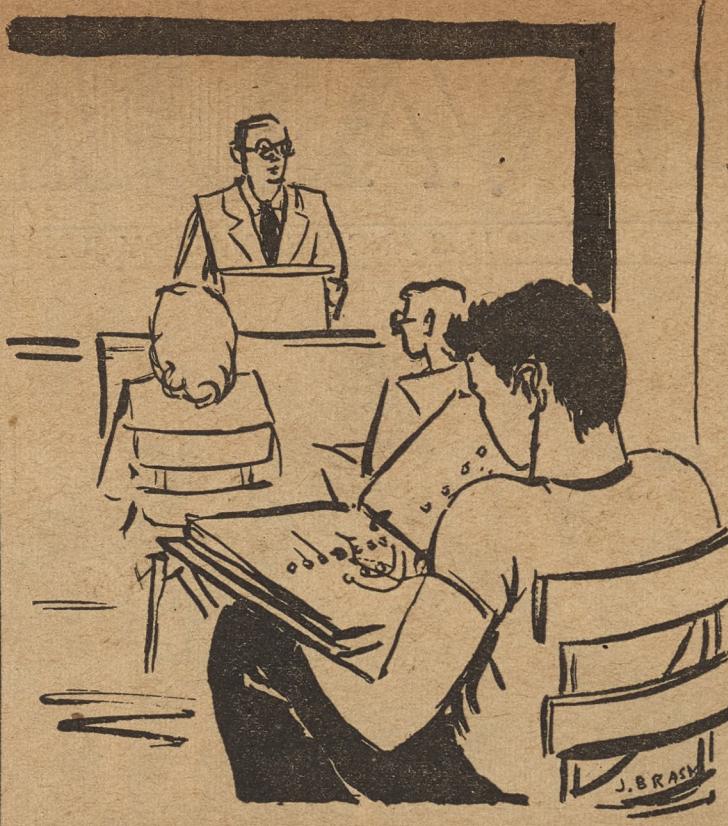

## Chem. Instructor Receives Honors For Research Work

"Reactions of 1, 2-Diphenyl-1, 2-acenaphthenediols in ethyl isopropyl, and tert-butyl alcohols" was the title of an important scientific paper prepared by Valley College chemistry instructor, Joseph B. Nordmann. The research paper was read this month at the 118th meeting of the American Chemical Society, at Chicago, Ill., by Ronald F. Brown, specialist in organic stereo-chemistry at USC.

The paper was a problem study of the reaction mechanism of the Pinacol rearrangement. The importance of the research was to find the course that reactions take, so that when a new drug is to be synthesized, reactions of certain molecules within the drug are already known. Mr. Nordmann's paper, prepared as his Masters' thesis, has been published in the Abstracts of Papers of the American Chemical Society, in the Division of Organic Chemistry, section 10:15-77, and will be published in its entirety in the Journal of the American Chemical Society, in January, 1951.

Mr. Nordmann is also the author of another paper entitled, "Reactions of Optically Active 2-Nitrobutane." This research paper was read at the meeting of the ACS at Atlantic City, N.J., in April, 1947, by Dr. N. Cornblum, of Purdue University.

have a musical, if we don't have a band. So, how about giving us a hand. If you're interested, contact me, or just leave your name in R. 12. How about it?

## The Valley Forge

By BILL TUNNELL

There has been a very ugly rumor floating around Monarch Meadows these past few days concerning who's in the Lion's Suit. Upon hearing these mad misstatements, I began an immediate investigation.

### Wily Willie

My first clue came from a dark little character, who will be known as "Wily Willie" for want of a better name, who stole up to me the other day and whispered "Jim College." I finally figured this out to be Jim Weigel. Now this is impossible. I saw him with my own orbits leading cheers at the time "Leo" was being tamed on the field.

Another name being whispered furtively around was Chuck Castaglia. Approaching Castaglia in my best Sam Spade manner, I flung the question, "Are you the Lion?" Rather taken aback at this query, he said, "ME, how could you suspect me of such a thing?"

Then much to my surprise, Dick Yamashita's name was bandied about in connection with this furious beast of prey. But "Smiley" said this was a ridiculous thing that I was confronting him with and would I please drop dead. I didn't drop dead but continued my sleuthing.

Now this will curl your toes; the next name I heard mentioned on the subject was that of Karl Von Poederoyen. Any churl with the slightest smattering of brains could see that he's too tall.

After pondering this sadistic situation for enormous eons of time I have come up with the answer. The Lion is really SHIRLEY HOLT.

### A Leo Named Smith

Speaking of Our Dear Mascot, I really haven't been flooded with suggestions for a name for "Leo." Naming a lion "Leo," is like naming a new born babe John when his last name is Smith. Let's shake our heads to get the marbles rolling and come with a name.

### Hooray????

That will be about all for this week as they're holding cheerleading practice here in the journalism room, which isn't very conducive to thought ? ? ?

## Monarchs To Know

By LEO OFALI

"Valley College is like the Grand Coulee Dam. You don't describe it, you first have to see it to appreciate it." That's the way Miss Bessie Butcher, chemistry teacher at Valley, sums up the college.

Miss Butcher attended the University of Washington in her home town Seattle, and received her master's degree in chemistry from Columbia. Both degrees were obtained after the war, but as she claims "I've never told which war."

She taught high school chemistry before going to LACC. While in high school work, her teams for the chemistry contest placed high; they won first place for both Eagle Rock and John Marshall High Schools.

Miss Butcher is quite a joiner. At present she is particularly active in the American Chemical Society which has over 2,200 members in the Southern California section alone. She is treasurer of the Hollywood Soroptimist Club, and was a delegate to the Seattle convention in July. The Soroptimists are an international-woman's service group. She was also treasurer of the California Science Teachers Association.

All in all Miss Butcher is a busy and extraordinary personality and we hope her stay at Valley will be a happy and successful one.

### Mr. Mitchum

Paul H. Mitchum, a new instructor in the commercial department, is building a house across the street from the site where Valley College will erect its permanent campus, indicating that his stay at Valley will be a long one.

A graduate of UCLA in 1928, he received his master's degree there in 1940. A navigator in there in 1940. A navigator in the Navy for four years, he held the rank of Lieutenant Commander. During the summer he spent 60 days in the Navy as a navigator on a submarine.

He is the father of a son who is in his freshman year at Oregon State College; he also has a son age 3 and a daughter age 5.

Mr. Mitchum taught at Univers-

## Science Equipment Purchased by Board

In an interview with Joseph B. Nordmann, chemistry instructor, it was learned that new science equipment, valued at thousands of dollars, has been purchased for use by Valley College Chemistry students by the Board of Education.

Among the new equipment is an Eberbach Electro-Analyzer, a machine that is used to analyze things by plating out with an electric current. A Photoelectric Colorimeter has been obtained for chemical analysis. A sample of the chemical being used is placed in the colorimeter and a light is shined through it. The percent transmission of light is read on a photoelectric cell. A polarimeter purchased in Switzerland is being used to measure the rotation of plane polarized light due to optically active compounds. Included in the purchases is a Beckman pH meter, which is used in determining the acidity of solutions and potentiometric titrations. Also among the new equipment is a U.S. Weather Bureau Type Barometer; 10 analytical balances, valued at \$2,000; a small centrifuge; 3 ovens for drying samples and a small muffle furnace for analysis.

## FACULTY'S ROSTER INCREASED BY ONE

William Hawkinson, new mathematics instructor, assumed his duties this week as the newest addition to Valley College's faculty. Having taught previously at Compton College, Mr. Hawkinson comes to us to augment the mathematics department. Valley's faculty now numbers 50 instructors.

ity and Manual Arts High Schools in Los Angeles and at LACC from 1946 to 1950. While at LACC, he became acquainted with William McNelis, John Tatum and Walter Coulter, all of Valley.

He thinks Valley has a "wonderful spot for its campus, and fine students" and that "we will have all the fun of building new traditions."

## HANDBOOKS OFFERED FREE FOR STUDENTS

Valley College handbooks, available now for the first time, may be obtained at the student store free of charge. These booklets will be given to students on presentation of student body cards which will be punched.

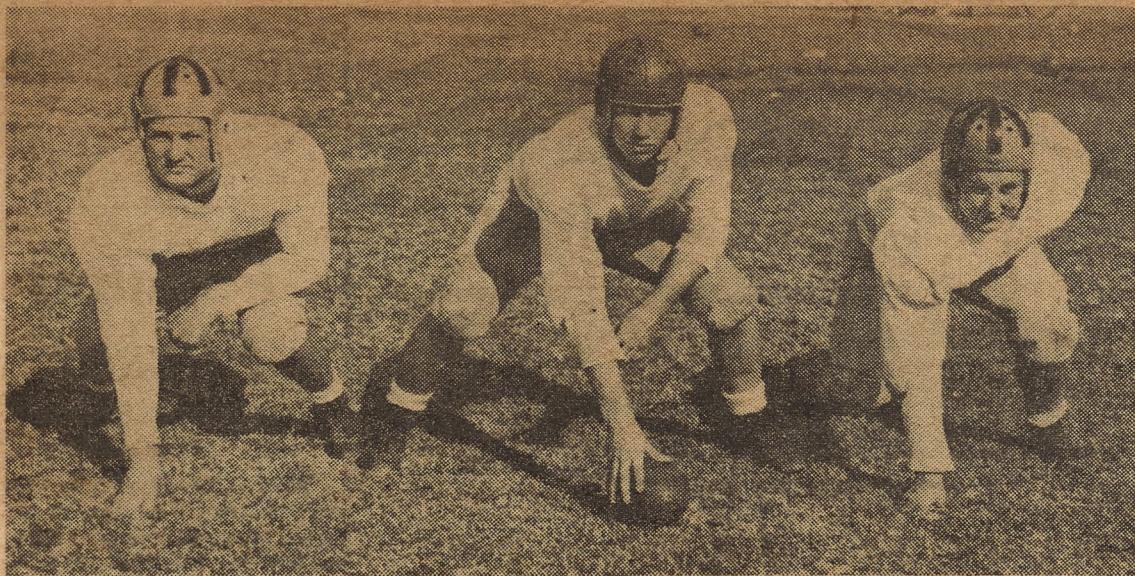

If a handbook should be lost, a student may obtain another one for 25c. Orders for new ones may not be made until October 16, however.

### Corsairs Knock Off Valley, 38-18 For Third Loss

By DICK DEGNON

For the third straight week in a row, Valley College lost a football game; this time it was at the hands of Santa Monica City College last Saturday night, 38-18.

Walt Ambord, who was declared eligible last Friday by the vote of three conference schools, was the bright spot for Valley as he tallied two touchdowns, set up another and averaged 4 yards a kick in the punting department.

For the winners it was strictly a one man show as Don Rimlinger carried the ball 93 percent of the time on offense and was a constant threat for the full 60 minutes of play.

The Corsairs didn't waste any time getting a lead as John Mann took the opening kickoff and raced 85 yards up the middle for six points. Fred Miller converted, and several minutes was banished from the contest along with the Monarch's Bob Clarke for mixing it up.

Chuck Wiand flipped four out of five passes complete after taking the ball on the kickoff only to lose the ball on a fumble on the Corsair 24 yard line.

Rimlinger passed to end Wallace for their second TD.

Valley came roaring back with six minutes to go in the half as Walt Ambord ripped off tackle for 59 yards and a touchdown.

Valley was completely stymied in the third quarter as Santa Monica controlled the ball most of the time in Monarch territory. Rimlinger bucked over from the three for the only tally in the third quarter.

Coach Curt Youel must have mistaken the Valley goal for the 38th Parallel as the Corsairs

By BRAD BROWNE

The other day I was thinking (no cracks) seriously about our football team here at Valley. I got to wondering how many football teams were anywhere near successful in their first year of athletic competition in the rough boy's sport. Frankly, I couldn't think of one college in the local vicinity or, in fact, in the United States who achieved fame and success without the help of another college.

I then proceeded to track down Coach Charlie Mann to ask him what some of the problems are con-

#### SC Drops Valley at Cross-Country Meet

Valley College sent their cross-country team against USC, Tuesday afternoon, at Elysian Park in their first competition of the year.

The unofficial score read 44-17 in favor of USC.

Jim Dickey had the best Valley clocking at 16:56 and placed a fifth. Johnny Garcia was a step behind Dickey at 16:57 and placed sixth in overall competition.

Captain Don Hoover came in at 17:36 for ninth spot.

Dwight Mobley placed eleventh at 18:20. Wesley Morris thirteenth at 21:12. Shelley Auerbach fourteenth at 21:25 and Ed Masry was fifteenth at 26 flat.

Valley's next cross-country opponent will be UCLA in the week of Oct. 16. ELAJC will be the first conference foe on Nov. 2.

crossed it three times in the final 15 minutes.

Valley came back in the last quarter to rack up two Tds; Chuck Wiand tossed a 20 yarder to Ambord for the Monarch's second score.

cerning a team which is taking its first crack at football.

Well, Coach Mann listed several items to be considered in developing a first year team. First of all, the team must have cooperation, spirit and that vital necessity, teamwork.

Second, the squad must have a nucleus to build upon. Tradition helps to bring about the above, and we are developing tradition now. Last but not least, the team only develops its spirit as the student body develops theirs. The team on the field has got to have the backing in the stands. When they hear some yelling from the stands, it gives them incentive to fight harder.

Coach Mann also listed some handicaps which have to be taken in stride. On a first year team there are no leaders to rally around and no nucleus to build upon. As we all know here, there are equipment problems too.

The coaches do not know what anyone can do. Therefore, they must give everyone a chance to show what he can do. This takes time.

Last week after the Santa Monica game, the Lettermen's Club supplied the football team with apples. The club will do this at every athletic event in the coming year. This is a fine gesture by the Lettermen and they are to be commended for their efforts.

## Rejuvenated Monarch Lineup Takes Field Against Strong Undefeated East Los Angeles

Well, the "biggie" is coming tomorrow night when the Monarchs meet the powerful Huskies from East Los Angeles on the Huskies' home field, which is Garfield High School. Game time is 8 p.m.

East L.A., from previous performances this season, is loaded to the hilt with outstanding football performers. Probably the most publicized thus far is Tom Zaby, All-City Player of the Year guard from Fremont High School in Los Angeles. Zaby weighs 195, usually sees action on defense and kicks the conversions. He has plenty of practice at this as the Huskies are a high-scoring ball club.

The home team's backfield is light and speedy and features Ben Vartanian at quarterback; Leroy Franklin and Phil Johnson at halfbacks and "Doc" Inman at full. Vartanian has thrown four touchdown passes in the team's first two games. Reserve halfback Louie Augustine is the team's best breakaway back and is unusually fast.

On the other side of the fence, Valley will again have a different starting lineup. Dave Sommers, who is coming along fast, will replace Tom Branigan at right end, while Bill Baker takes over for Willie Austin at the other flank position. In the backfield, Bob Clarke will open at left half in place of scatback Johnny Godfrey.

Except for those changes, the lineup remains the same with Bob Rebol at left tackle, Jack Langford at left guard, Mike "Rock 'em, Sock 'em" Sutalo at center, Bert Nitsch at right guard, and Rod Sweet at right tackle. Chuck Wiand will start at quarter with Walt Ambord, last week's leading ground gainer, at full and Tony Albert, right half.

East L.A. will enter the game as a top heavy favorite to keep their 13 game winning streak intact. Huskie Coach Al Hunt has a 48 man squad of almost equal ability.

## Basketball Practice Starts Next Week

Coach Ben McFarland makes his first appearance on the sport's page of the STAR by issuing the yearly call for all basketball aspirants to report to the gym on next Monday at 3 p.m.

Basketball practice starts next week on a two day a week basis. Practice will start Monday at three and last until 5 p.m. on Mondays and Wednesdays. A full week's schedule of workouts will not be allowed until November according to Metro circuit rulings.

Coach McFarland stated last week that he expects a large turnout and a much better team than Valley College fielded last year due to the influx of court performers on the Valley campus.

## Mrs. Ezra Blanchard Heads N. H. Library

In the last issue of THE VALLEY STAR, the North Hollywood Regional Library story stated that Mrs. B. Elza is head librarian. This was an error. The head librarian is Mrs. Elza Blanchard.

## Valley English Staff Announces New Clinic

A new study clinic is being introduced at Valley College by the English department instructors.

There will be eight sections of the clinic which will meet every period on Tuesday and Thursday except period 4 (11 a.m.).

The clinic has a dual purpose which is:

1. To try to help people form good study habits and good study aids. The techniques, time and rotation of study and budgeting time will be taught.

2. To increase reading speed, comprehension and vocabulary.

Within ten weeks a retest will be given on reading. If the students have reached a certain level, they will be excused from further attendance.

This week, students will know whether they can take additional people on with applications. There are a number of students who have already applied.

Dr. Blanche Bloomberg, chairman of the clinic, stated, "We believe that the effect of the study clinic will be observable in all classes on campus."

The following is a schedule for the study clinic:

Subject	Period	Room	Units	Instructor
S.C. Sec. 1	2	25	1	Woolfan
S.C. Sec. 2	3	25	1	Braun
S.C. Sec. 3	5	25	1	Jenks
S.C. Sec. 4	6	25	1	Vactor
S.C. Sec. 5	1	25	1	Braun
S.C. Sec. 6	2	614	1	Jenks
S.C. Sec. 7	3	614	1	Woolfan
S.C. Sec. 8	7	25	1	Caliguri

### Ping Pong Offered To Students

The ping-pong tables outside R. 15 are now available for any student wishing to play between classes or in his spare time.

The tables were obtained by Joyce Morgan and have already interested a number of Valley College students.

A Ping-Pong Club has been started and anyone wishing to join may sign the register which is tacked on the wall behind the tables.

### STUDENT-Y PRESENTS EXCITING CAMPFIRE JAMBOREE AT PARK

The first annual Campfire Jamboree at Griffith Park, presented by the Student-Y proved to be a success as over 70 Valley students attended the gala affair.

Highlight of the evening was the campfire program which was held in the large amphitheater around the Big Fireplace. Included in the program were the singing of camp songs, a humorous hat stunt, a short play, a magician act, a lion hunt and a comedy sermonette on "Little Jack Horner."

Also included in the evening's entertainment were volleyball, softball, football and numerous contests.

Paul Somers, Van Nuys YMCA program secretary, gave a closing thought based on a personal experience he had while on a camping trip.

The evening was completed with a dance at the home of Ken Westson.

The Y held its first campus meeting last Tuesday under the direction of president Wyatt Seal. Plans were made for the induction of new members which took place at the Central Christian Church in Van Nuys.

### Valley- Go- Round

By DODIE JOYCE

Are you one of the fortunate ones who can walk to school because you have a car? Or have you noticed how many cars there are at Valley now—and they all have to have a place to park!

The fellows are teasing the girls who drive cars to school as usual. They claim the gals just don't know how to park a car.

... Betty Fletcher drives to school every day in her '40 Plymouth and doesn't seem to have a bit of trouble. ... Jane Crisp and Sandra Crescent have solved the problem by driving miniature cars.

It seems the general consensus of some of the fellows is that a woman's parking job isn't complete until she hits the bumpers of the cars in front and behind, scrapes the tires on the curb and backs in about umpteen times. It couldn't be true—or could it? Seems cars are a problem—we can't get along without them or with them!

There's a brand new, French grey, 1950 Dodge around here somewhere that has a spasmodic temper of its own.

It seems that the newly purchased vehicle decided one afternoon to take a nap. When Walter Coulas, owner of said car and dean of instruction, tried to start it, the auto just "turned over" and went back to sleep. The Dean's instruction failed, and he was left wishing he had a "Buick."

... Little Chuck Moran came up from San Diego where he is stationed at the Navy base Saturday night to watch the Santa Monica Valley game. Moran, on a 36 hour pass from the base, is well-remembered for his ability as cheerleader at Valley last semes-

ter. Many reminisced as Chuck led the college in a few yells. No one will ever forget the spirit and enthusiasm he showed as cheerleader.
